Creator Contests APP

Tasks

- Google authentication
- Create a contest
- Search for contests
- Submit work
- Vote

Interaction scenario and Paper sketch

- ### Create a contest

The user clicks in the '+' button, specifies the type (photo, video, audio, or text), the award for the winner, defines the deadlines for the submission and voting phases and uploads a photo for the contest's thumbnail.

- **Submit work**

The user searches for a contest under a certain category and selects one in the submitting phase. Afterwards, clicks in the 'submit' button and uploads the desired work.

Wireframe and Mockup

The wireframe and mockup were made using Figma tool and can be accessed via Figma. The prototype can be viewed directly with Prototype.
